

Candidate Profile

Gita Daya
Project Manager, Hogan Technology
First National Bank

Academic Credentials

Gita Daya graduated from Rhodes University in Grahamstown with a BCom degree in 1998. Her subjects of interest include Information Systems, Management and Commercial Law. Her postgraduate studies include various IT-related courses, such as the COBOL Programming course through Mazhakandila Training CC, which resulted in her acquiring her Information Technology Users Council (ITUC) Certificate. Other courses attended by Gita, including Business Analysis courses, have provided a foundation in basic project management.

Current Work Description

Gita was recently appointed as a Project Manager for a technical development team within Hogan Technology at FNB. Her role involves managing all the Technical projects as well as any System changes required by the CIS system. Her responsibilities include the provision of technical support to the business and ensuring that all projects are implemented successfully into the banking environment. Gita's role incorporates the co-ordination and management of projects initiated both from a business perspective and from the technology unit itself, ensuring that the team

delivers the most suited IT solution to meet the business requirement. Other responsibilities include monitoring the banking system for effectiveness, efficiency and resource utilisation and ensuring that all service levels are maintained.

Business Credentials and Skills

Gita's strong technical knowledge together with her business knowledge have stood her in good stead in her current position where the combination is essential to achieve desired results. Her strong people skills are invaluable in an environment where conflict resolution and team building are vital to successfully manage and motivate her team.

Personal and Professional Learning Objectives

Gita Daya's objectives for this programme are to:

- Become more effective at decision making and strategic thinking
- Develop leadership skills
- Incorporate her learning into her workplace, and
- Develop into a more solid management role.
