

Candidate Profile

Shirley Phumzile Mogodi
Business Architect, Commercial Bank
First National Bank

Academic Credentials

Phumzile graduated from the University of Cape Town in 1999 with a BCom degree (Information Systems) and from the University of South Africa with a BCom Honours (Business Informatics) in 2006. She also holds a Programme in Principles of Business & Leadership Certificate from Wits Business School, obtained in 2003.

Current Work Description

As a Business Architect and team leader for the Credit stream, Phumzile is responsible for liaising with both business and functional leaders to determine appropriate solutions to meet business requirements. She designs solutions that encompass various combinations of process optimisation, new or changed technology solutions and business process automation. Phumzile sits on the Commercial Information Management Systems (IMS) Executive Committee and is also a member of the Commercial Credit Executive Committee where she represents Commercial IMS.

Business Credentials and Skills

Phumzile has been in the Banking industry for more than seven years where she has learnt commercial banking focusing mainly in information systems. She has successfully implemented systems that comply with Basel II, the National Credit Act and other systems like Collateral System Migration and Commercial Recoveries Systems. Phumzile has gained extensive knowledge in Business Analysis, Process Management, Project Management, Commercial Credit Processes and Systems, Basel II and the National Credit Act.

Personal and Professional Learning Objectives

Phumzile Mogodi's learning objectives for this programme are to:

- Develop people skills
- Develop leadership skills
- Develop negotiation skills, and
- Learn more about the different business areas of the bank (e.g. products, marketing, etc.).
